As indicated in The Sun yesterday, the principal officers were elected at the business session of the Southwestern Kentucky Medical Society last evening in the council chamber. All the officers assumed their duties this morning, the session being called to order by President Stilley. Dr. Purcell was at the secretary's table. Clinton was chosen as the place for the semi-annual meeting of the society next fall. Dr. E. B. Shelton, the retiring president, made his annual address last night in which he reviewed the condition of the society.

This morning's session will wind up the thirty-sixth annual convention of the society. Many papers on the program could not be given as the authors are not present. The attendance this year has been representative, and the interest is marked. Many doctors arrived yesterday afternoon to be present at the afternoon and evening sessions and the banquet at the Palmer House.

One hundred and ten doctors sat down to the banquet last night. It probable was the largest attendance at any of the social features ever given by the society. This year's convention is conspicuous for the absence of the doctors' wives and daughters. Almost without exception they were left at home.

Doctors began leaving early this morning for their homes and the attendance at the last session was considerably lower than yesterday.

Resolutions on the death of several members of the society since the last annual meeting, were introduced in this afternoon's session by Dr. R. T. Hocker, the historian of the society. The papers that were not finished this morning were read this afternoon. The doctors expressed their appreciation of the use of the council chamber the courtesy of the city hall officials, and the cordial reception given by the local doctors, and adjourned until the semi-annual meeting next November.

CODY OFFERED \$25,000

Denver, Colo. May 15 .- About a month ago Colonel William F. Cody ("Buffalo Bill") was called to Denver and offered first \$10,000 and later \$25,000 if he would tell Howard Gould's agents all he knew of the early life of Gould's wife. The story has just become known through some of his old compades in whom he confided.

Colonel Cody knew Mrs. Gould when she was Catherine Clemmons and traveled with his show, though she was not a part of it. The agents asked him if he ever heard anything about Catherine Clemmons and "Big Hawley" fleecing a Frenchman in Italy out of a large sum of money. The of the Boer war has cost \$125,000 veteran scout's answer was:

TO TELL OF MRS. GOULD You see," he added, "I have a claim of Central American states and that for \$60,000 against Mrs. Howard the remarks relative to the advisa Gould for money due me for her bility of the federation of Central stage education and for financing her productions before her marriage." This is alleged to be not the only

attempt Howard Gould has made in the west to get inside information about the early life of the woman he married. At present he has detectives in California searching the records and trying to find out all they can about her.

There was a pause, during which Sala looked out the window as if he had taken my pulse and was deciding how much faster it could beat before I must die. Pretty soon he turned my way, and, after some general advice about coming to an early decision as to whether I meant to be a purely descriptive writer or not, deivered himself of this statement: "If ou settle in London, as a journalist, you'll be a drudge. If you try New York, you'll be a boozer -unless," and again the Portuguese eyes shot at me, "you keep out of the rut."

In later years I have often thought of this talk with Sala, when comparing the two different sets of writers I learned to know in London and New York: Off hand, I should say that honors were even between them as regards the virtues, any advantage n this particular falling, if there was any, to the Englishmen, on acount of the early closing hours in England.—Success.
